

MICHAL KAŽDAN

AI CONSULTANT & SW ENGINEER

+420 606836180 kazdan@seznam.cz github.com/xkazm04

SW ANALYSIS

- Requirement analysis
- Process documentation
- UML diagrams
- Rest/Soap API design
- DB Design

WEB DEV

- NextJS/React (senior)
- Figma design (medior)
- Python FastAPI (medior)
- Node Express JS (medior)
- MongoDB (junior)
- Postgres (medior)

LLM RELATED

- n8n workflows
- Langchain pipelines (python/js)
- Prompt engineering
- Vector databases
- Agentic automations

Use cases

- Knowledge-bases
- Automated Development
- Continous DevOps
- Deep research
- Image classification

EDUCATION 2012 - 2019

University of Economics, Prague
Applied Informatics
Bc./Ing.

PROFILE

Software analyst with overlap into fullstack web development, specialization in digital process automation using the latest LLM tooling and delivery in production-grade quality.

My goal is to understand which tasks users (anywhere who works on computer) spend time on repetitively, design an automation prototype and ship it so users can delegate the tedious parts of their job and focus on more creative activities.

WORK EXPERIENCE

BornDigital, s.r.o.

10/2025 - NOW

AI Consultant

- Fullstack AI Engineer (React, Python)
 - RAG solutions
 - LLM based web prototypes → Prototype evaluation and transformation to production-grade apps
- Technical analysis and IT solution design

Freelancer

03/2025 - 10/2025

AI Automation Specialist

- **Groupon, Inc**
 - Digital process analysis & automations
 - n8n workflows implementation
 - Google ecosystem automations: AppScript, Vertex AI, Opus
- **Czech state administration**
 - Solution analysis: Using LLMs for government contracts classification

Česká Spořitelna, a.s.

03/2023 - 03/2025

IT/Business Analyst

- **Software development lifecycle** management in corporate banking projects
- **Process automation** using **OpenAI, Langchain, TypeScript**
- **Solution design** - functions, interfaces (REST, SOAP, Kafka, Offline), data. Communication with stakeholders and dev team
- **Documentation** - JIRA, Confluence, UML (Activity, Sequence)

Prior experience

- **2021-2022 DX Heroes CZ, s.r.o.**
 - IT Analyst (Rest/Graph/RPC API design)
 - Frontend development (ReactJS - documentation portals)
- **2020 SingleCase, s.r.o.**
 - QA Engineer (SOAP, Cypress) - Legal web app
- **2019 - 2020: Moneta Money Bank, a.s.**
 - IT/Business Analyst - ATM software
- **2015 - 2019: Česká Spořitelna, a.s.**
 - IT/Business Analyst - ATM software
